Job Description

To carry and load excavation materials for excavators working on projects.

Assist with various labor related tasks including, but not limited to, excavation, hand-digging with a shovel and project clean up. The ideal candidate for this position will have experience operating various excavation equipment, such as a backhoe, drilling/boring machine and a bursting machine.

Essential functions:

- Check daily assignments and coordinate with assigned crew foreman.
- Assist technicians with excavation needs, including digging of holes and trenches.
- Clean up job sites.
- May assist technicians with the loading and unloading of equipment and materials.
- May assist technicians with lifting heavy materials, such as large sticks of pipe or bags of concrete.

Additional responsibilities:

Those with previous training and experience may operate various excavation equipment, including mini-excavators, backhoes, drilling/boring machines, bursting machines, jackhammers, and concrete saws. Those with a valid driver's license and good driving record may, on occasion, drive various company vehicles, including service vans or dump trucks.
